- SEO
- WORDPRESS

---

I have a diverse set of skills, ranging from responsive web design to HTML, CSS(SASS/LESS), JavaScript, custom Wordpress development and SEO.

My current interests about the web technologies are JavaScript Frontend Frameworks. I follow up and develop my own projects with Vue.js.

I've started to my career as co-founder of digital agency(Teknovol) in Turkey, after a while I realised I want to be a developer. I have decided to try my chance in abroad and I got an internship with Erasmus Intern Program as a Master Student here in the UK. After my internship I decided to live in the UK, I worked with an agency on several different web project and still working with food tech startup company

One of the main purposes of my life is encouraging more women in the tech industry. Therefore, I'm very happy to be a part of Lonca, Code Club and WTM!
