# Gülistan Boylu

Project Manager & Frontend Developer at StopMyCraving  
Staines, Surrey, United Kingdom

## Summary

I have diverse set of skills, ranging from responsive web design to HTML + CSS + JavaScript, custom Wordpress development and SEO. Also several experiences with individual customers e-commerce platform such as Shopify, Woocommerce and Magento.

My current interests about the web technologies are JavaScript Frontend Frameworks. I follow up new released JS Framework(Vue.js)s and play around and deploy these to Heroku and see how it works!

I have scientific paper about Agile and Lean Approaches for development.

Specialties: HTML, CSS(LESS/SASS), JavaScript, JQuery, Bootstrap, Git, Wordpress, SEO and Digital Marketing, responsive HTML Email Design and Development, Photoshop and Sketch.

Design Specialties: Responsive Web Design with Photoshop, Mobile App Design with Sketch, Brochure and panel design with Indesign.

One of my main purpose in my life is encouraging more woman in the tech industry.

Therefore, I'm very happy to be a part of Lonca, Code Club and WTM!
